

# CISSP 101

## Domain 1: Security and Risk Management

AL NAFI,  
A company with a focus on education,  
wellbeing and renewable energy.

# Forty Hadith on the importance of Knowledge, learning and Teaching.

# Hadith # 9 Reporting Envy

Abd Allah Ibn Mas'ud narrated, the Messenger of Allah peace be upon him said:

“Let there be no envy, except in two things:

1. A man to whom Allah gave a wealth and guided him to spend it in righteous way.
2. Or a man to whom Allah gave wisdom and he acts wisely and teaches it to others.”

(Al-Bukhari and Muslim; See an-Nawawi, Riyah as Salihin)

# How Nafi Members Study!

1. Please subscribe to our YouTube channel  
<https://www.youtube.com/channel/UC2yAW4Oq27r1yuRE8ePKRvA>
2. Follow us on Facebook <https://www.facebook.com/info.alnafi/>
3. Follow us on Twitter <https://twitter.com/nafiPakistan>
4. All Nafi members MUST study on the portal <https://alnafi.com/login/> and connect using your Nafi member username and password
5. Once on the portal they can follow their classes by:
  - watching videos
  - asking questions
  - attempting quizzes and flash cards
  - studying official Nafi notes
  - taking their own notes online just like evernote
  - keep track of their studies long with many more features

# Domain 1: Security and Risk Management

- 1.3 Determine compliance requirements
  - Contractual, legal, industry standards, and regulatory requirements
  - Privacy requirements

# Security is a functional requirements.

Security cannot exist without a business but business can exist without security.

So every thing you do as a security practitioner MUST be made in alignment of business requirements.

The most secure computer is the one which is not connected to the internet is some where down in a cave or a bunker where no one can access it 😊

# Security alignment to organization goals/objectives/mission statements etc.

In today's age information security will support an organization to be operational.

You as a security practitioner must understand how the organization functions, then determine how a security plan will be developed and implemented with the buy in from security management.

# Security alignment to organization goals/objectives/mission statements etc

Bad security practices can severely impact an organization ability to function as they will be tackling attacks that could have been prevented.

# Who is responsible for security

It always starts from the Top.

Ultimately the board of Directors and the CEO are responsible for organization security.

# Roles who manage Security

- Senior Management (CEO, CFO, COO, CIO, CTO, CSO) (Policies)
  - Security manager/officer/director (Procedures)
  - Security personnel's/practitioners (Standards) (They are first line defenders)
  - Administrators/technicians (Guidelines) (They are first line defenders)
  - Users
- 
- Note: every person within an organization should be involved within the security program!!
